Being an international student from Indonesia at SILC has been an amazing experience. The teachers are really supportive and have encouraged me to take part in competitions, which has been both fun and a great learning opportunity. I believe learning Chinese is really important, especially as China continues to grow and strengthen its role in the world. I also love meeting people from different cultures —it's been inspiring and has helped me grow so much personally and academically.

CAITLYN AURELIA, Indonesian

Studying in abroad was always a goal I had and China resulted to be the best option for me after all the analysis. A growing economy and a new language made me attracted to the country, and Shanghai University just fitted into my vision. SILC showed me an interesting proposal that aligned with my professional goals and after being here I also realized it aligns with my personal goals. I have felt very welcome by the Chinese people, Shanghai University and SILC. All of them have played a key role in making my adaptation to a whole new world easier and have allowed me to make the best out of the experience.
